## NorCal Chapter Offers ME207: Advanced Cost Approach June 16-18

3/8/2011 11:01:35 PM

The NorCal Chapter of the American Society of Appraisers is pleased to announce that Les H. Miles, Jr., FASA, CEA, FAPI is teaching a 3-day seminar: ME207: Advanced Cost Approach June 16-18, 2011.

ME 207 covers applications within various concepts of value; deriving numbers for and understanding terms such as excess capital or excess operating costs, exponents, physical deterioration, functional and economic obsolescence; use and development of effective age and age-life calculations. This 3-day seminar offers an optional 3-hr exam on Saturday afternoon for academic course credit. Breakfasts and lunches will be provided each day at the seminar location.

You will learn:

- How to apply various concepts of value
- How to derive numbers for excess capital or operating costs
- How to distinguish between types of depreciation & calculate values
- How to use & develop effective age & age-life calculations

To register, visit [www.regonline.com/ME207SanFrancisco](http://www.regonline.com/ME207SanFrancisco). For more information, email [asa.norcal@gmail.com](mailto:asa.norcal@gmail.com) or call Matt Dianich at (415) 762-6330.
